

DESCRIPTION:

The Brilliance LED MR-11 LED lamp has been redesigned to better fit into standard, low voltage, MR-11 fixtures. These LED's are thermally engineered to operate in enclosed fixtures and provide added security by automatically cooling down (and reducing lumens output) only when exposed to extreme heat (air temperatures above 125°F). In addition, there is no color shift when lumens output is reduced, and the overall lamp life is improved.

FEATURES:

Max current: 2w 0.4a

• Dimmable with most magnetic transformers

Enhanced ESD (Electro-Static Discharge)
Protection (IEC-61000-4-2)

Heat Overload Protection Technology

• Fully potted PC board
