

FIRE SPRAY

SAFE & EASY
CLEAN-UP

Ideal for Grease Fires

Sprays 4X Longer*

Easily Fits in Kitchen Cabinets

HELPS EXTINGUISH RESIDENTIAL FIRES FAST!

What is it?

A fire extinguishing spray that is easy to use in case of a fire.

What makes it unique?

- Spray nozzle design is intuitive to use.
- 4x Greater discharge time vs. traditional fire extinguishers which allows more time to fight the fire.
- Faster suppression of fire may help reduce property damage.
- Easy clean-up and biodegradable! Fire Spray will not damage stove and counter surfaces like a traditional ABC fire extinguisher, which reduces maintenance and clean-up costs.
- Augments 2.5lb fire extinguisher compliance unit required in some areas for multi-family dwellings.
- No Hazmat Shipping Fee.

Fire Spray is effective on:

Common Household Fires

Fire Spray is able to extinguish common fires such as fabrics, paper, and wood.

Cooking Oil Fires

Fire Spray is unique in that it is able to extinguish cooking oil fires. The liquid contents create a barrier or "blanket" that rapidly extinguishes the fire.

Fires Involving Electrical Equipment

Fire Spray is effective to use on fires involving electrical equipment of 110/220 volts (e.g. a fire started by a toaster). Independent testing has shown the spray pattern is not electrically conductive at 35,000 volts, even from 10 inches.

Frequently Asked Questions

What types of fires does Fire Spray extinguish?

Fire Spray is effective on fires including paper, wood, fabric, cooking oils and electrical fires.

Why use Fire Spray?

Many residents claim that they find traditional fire extinguishers intimidating to use due to their bulky size, cumbersome valves and pull pin activation. Fire Spray is as easy to use as other familiar household products. Fire Spray is designed to be user friendly and help put out fires fast before they spread.

How large of a fire could Fire Spray be effective on?

Fire Spray's 4x greater discharge time may help reduce loss of life and property damage for multi-family facility managers and owners. However, when using a traditional fire extinguisher or Fire Spray, tenants should only attempt to put out small fires that have not spread beyond the immediate area where the fire first started.

Is Fire Spray easy to clean up after use?

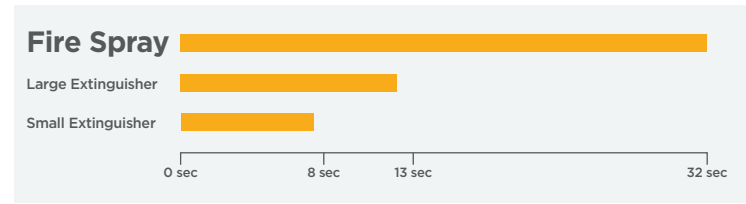

Yes, simply wipe with a damp cloth. It will not damage stove and counter surfaces like a traditional ABC fire extinguisher - This reduces maintenance and clean-up costs!

Currently unavailable in Alberta

4x Longer

The discharge time is up to 4x longer than traditional fire extinguishers allowing the user time to fight the fire.

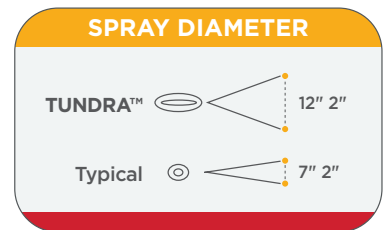

Inside The Product

An internal pouch isolates the content from the pressure. When the spray-nozzle is pressed, only the contents are released and the propellant stays inside the can so the fire is not agitated.

Proprietary Wide-Spray Nozzle

A first in the industry. The wide-spray pattern allows the agent to more effectively fight a greater surface area of the fire at once - 3x greater than a typical actuator.

SHIPPING SPECS:

Individual Can Dimensions: 8.2" L x 2.5" W x 9.5" H
 Weight: 1.4 lbs
 UPC: 029054021175
 Master Carton Dimensions: 6.2" L x 6.4" W x 10.3" H
 Master Pack Qty: 4
 Weight: 5.5 lbs
 Cube: .24 ft³
 I2of5: 10029054021172

Pallet Information

Cases Per Layer: 42
 Number of Layers: 4
 Cases per Pallet: 168
 Units per Pallet: 672
 Cube: 51.1 ft³
 Weight: 989 lbs
 Warranty: 3 Years

Comes in 4 Piece Tray!
