

The Perfect Pair

LUNA has fallen in love with Liteline's new OnCloud Dimmer. This dimmer has taken lighting to the next level with WiFi control. You can now seamlessly dim or turn fixtures on/off through the WiZ app on your smartphone or tablet from anywhere. Through the app you can create scenes, timers, and much more, to customize the lighting in your space.

Although this dimmer works with most dimmable fixtures, we don't suggest cheating on LUNA. ;)
