# Hubbell tradeSELECT® and netSELECT®

Select the best when it comes to electrical devices and voice/data products. Choose Hubbell for the superior performance, innovation and style your home deserves.

## Energy Savings Like Never Before

Energy efficiency isn't just good for the environment – it's good for homeowners, too. Occupancy sensors and timers offer real energy savings so you can enjoy significant long-term, ongoing reductions in electric bills. Hubbell offers a range of options for controlling residential energy use. Sensors turn lights on when you need them, and automatically turn them off when you leave the room. Digital timers provide economic lighting and fan control with just the touch of a finger. LED-compatible dimmers allow you to control lighting levels, offering just the right atmosphere with comfort and convenience.

# Products for Your Home

## Safety with Styling

When you think safety, think Hubbell. Our range of products makes a difference. GFCI and AFCI receptacles provide the best in people and fire protection, minimizing worry about shocks and electrical fires. Tamper-resistant receptacles reduce the risk of injury by preventing foreign objects from making electrical contact. New nightlight switches and receptacles provide a guiding light, with energy efficiency. But putting safety first doesn't mean that aesthetics should be ignored. To align with residential décor, Hubbell wiring devices are offered in a full range of designs that blend beautifully with furnishings and finishes.

## Technology and the Interconnected World

To accommodate advanced electronic devices, homes need to be wired for the ever-changing pace of technology. Not only should wiring systems complement aesthetics, but they should also be efficient, reliable, and safe in order to support computers, televisions, and security systems. From network enclosures to USB charging outlets, Hubbell has a broad line of products that are specifically designed to support the connectivity and power needs of homeowners.

# Enhanced Home Products

## *Decorator Night Lights*

Night light switches and receptacles help light the way. Put light where safety is a concern for seniors and children: in the bedroom, along the hallway, and in the bathroom.

## *Countertop Pop Up Receptacles*

Because spills happen. These pop up receptacles fit perfectly into the kitchen island. Pop-up receptacles provide power and are designed for use in compliance with NEC 406.5. UL tested and water resistant to a half gallon spill.

## *Occupancy Sensors*

Saving energy has never been so easy. Have the lights turn on automatically when you are there and turn off when you're not. Excellent for the laundry, bathroom and walkthrough areas, basements and attics. Available in automatic and vacancy options, with time adjustments.

## *netSelect® Structured Wiring*

Use structured wiring cabinets and modules to locate and terminate all of your service provider and data connections. This network solution secures your voice/data and entertainment systems in one location. A modular approach makes it easy to upgrade, and keep pace with evolving technologies.

### USB Chargers and Surge Protective Devices

Conveniently charge portable electronics with combination USB chargers and power outlets. Perfect for the home office, these receptacles have standard electrical power along with high power 5 Amp USB ports for the maximum in charging capacity. Surge devices manage power quality and help protect electronics. Receptacles give you point of use protection, while panel protection is specifically designed to catch incoming power spikes from outside the home.

### Floor Boxes

Residential floor box receptacles offer a solution to bring power where you need it. In large rooms, access to power may be needed in the center for lighting, entertainment systems, and everyday portable power for laptops and tablets. Floor boxes are the answer. Available in multiple finishes in metal and plastic to blend in to any design.

### GFCI

GFCIs are people protection, eliminating power when there is a non-typical path to ground. Anywhere there is water, GFCI protection is recommended. Add a level of safety where people, power and water meet.

### Flat Panel TV

Flat panel television enclosures deliver high-density connectivity for power in the wall. Allows for flat panel displays to sit flush against the wall with no dangling cords. Compatible with a wide variety of TV mounts, the entire system enables high-density cables to fit in the smallest footprint possible.

# Standard and Decorator Switches

Decorator switches provide a sleek and appealing look. They are the perfect finishing touch to complement any interior. Easy to use, simply press the rocker. Night light switches help light the way. Increase security and safety to see where you are going.

# Sensors, Dimmers and Timers

Saving energy has never been so easy. Sensors control the lights automatically. Occupancy sensors are designed to turn on when you are there, and off when you're not. All are adjustable for delayed off. Vacancy sensors are turned on like an ordinary switch, but automatically turn lights off.

## Passive Infrared Occupancy Sensors

Note: Neutral required.

# Tamper-Resistant Receptacles

Put power where you need it, in style with Decorator receptacles. The same quality and performance as standard devices, but with a contemporary style. Tamper resistant devices prevent accidental insertion of a signal item, like pins and keys to help keep children safe. The Tamper Resistant mechanism is cam action for smooth insertion of plugs, like it is not even there.

## Device Mounting Plates

For use with CFBS1R4 and AFBS1R4 Series floor boxes

Sub-plate with (1) decorator opening and (2) jack openings

**S1R4SP2X2STYLE**

Sub-plate with (1) duplex opening and (2) jack openings

**S1R4SP2X2DUPLEX**

(4) single 20A receptacles

**S1R4SPQUAD**

Because spills happen. Pop-up receptacles provide a power source ideal for kitchen and bath counter tops. UL listed 498 Section 146, for use in compliance with NEC 406.5. UL tested and water resistant to a half gallon spill.

### Countertop Receptacles

Description	Finish	Color/Material	Surface Mount	Flush Mount
15A 125V Tamper-Resistant Pop-Up Kitchen Counter Receptacle, Rated for 20A circuits Cover: machined aluminum, Wiring chamber accepts 1/2" MC or non-metallic sheath cable	Powder Coated	Black White	<b>RCT200BK</b> <b>RCT200W</b>	<b>RCT201BK</b> <b>RCT201W</b>

Note: \*Steel box with nylon cover.

# Structured Wiring

The network solution that satisfies the need for dependable and flexible management of your voice/ data and entertainment multimedia systems. This modular system makes it easy to upgrade, and keep pace with evolving technologies. Cabinets mount surface or recessed, between 16" studs. All are powder coated painted with 14 gauge steel for maximum impact resistance. Hinged cover can be mounted to swing from either side. Provisions to mount optional power outlets and lock kits.

Today's Communications Entail a Lot More Than Just Talking.  
netSELECT® Keeps You Connected—Internet, Voice, Data and Entertainment

## Network Enclosures

Trim ring				<b>NSOBX48R</b>

Note: \*Door covers rough-in, no trim ring provided.

# Network Modules

Modular components enable your design to match your performance requirements. Modules snap horizontally or vertically into the enclosures for optimum space management.

## Combination Module

Description	Catalog Number
6-port telephone panel, 6-port coaxial splitter, and 6-port Category 5e panel; Provides voice, video, and data distribution in a space efficient package; perfect for use with NSOBOX10 and NS790xx plates to quickly establish a comprehensive home network.	<b>NSOTVDM6</b>

## Primary Telephone Module

Description	Catalog Number
8-port phone outlets to manage up to (4) incoming lines for voice or accessory applications in a protected PCB module; RJ31X interface jack included for security system connection; RJ45 jack interfaces with optional NSOETM8 telephone expansion module for additional extensions.	<b>NSOPTM8</b>

## Data Module

Description	Catalog Number
Category 5e data module, 8-port supports Gigabit Ethernet for up to (8) Category 5e data lines with front 110 punch-down terminations in a protected PCB module	<b>NSODM8</b>

## 6-Way Coaxial Splitter Module

Description	Catalog Number
1GHz, basic unit with one incoming line and six outgoing	<b>NSOVM6</b>

## Fixed Video Amplifier Module

Description	Catalog Number
Provides 10dB video signal amplification for incoming cable feeds; Recommended for use when more than four outputs are installed; Provides 10dB forward path gain and supports current digital cable systems; Includes RG-59 cable jumper to connect amplifier to passive video splitter; 120 Volt rated	<b>NSOVAMP</b>

## Blank Module Plate

Description	Catalog Number
Allows mounting of active components (i.e. switches, routers) or other devices onto a modular platform; can be custom drilled or used with two included self-adhesive VELCRO® strips	<b>NSOBM</b>

## Multi-Provider Patchable Telecom Module

Description	Catalog Number
12-port telephone module distributes 4 incoming lines out to 12 locations through RJ-45 jacks; allows data lines to be converted to voice with the move of a patch cord; RJ31X interface jack is included for security system connection	<b>NSOMTM12</b>

# Entertainment Systems

Flat panel television enclosures deliver high-density connectivity for power in the wall. Allows for flat panel displays to sit flush against the wall with no dangling cords. Compatible with a wide variety of TV mounts, the entire system enables high density cables to fit in the smallest footprint possible.

## FPTV Connection Enclosures

Description	Color	Catalog Number

# Wallplates

Snap-on wallplates offer a clean, elegant look that can be installed in seconds. Thermoplastic plates are virtually unbreakable, an eighth inch larger than standard to hide rough box openings for improved aesthetics. Greater strength, impact and chemical resistance with excellent cleanability.

# Electric Vehicle Charging Station

The HBLEV30B Electric Vehicle Charging Station enables fast level 2 charging of any SAE J1772 compatible electric vehicle. This new EV charger delivers power and offers a more compact, easy to use and easy to install solution to electric vehicle charging.

Compatible with all Electric Vehicle Supply Equipment (EVSE) Codes, Standards and Recommended Practices, including SAE J1772, NEC 625, UL 2231 and UL 2594.

## Level 2 Electrical Vehicle Charging Station

Description	Catalog Number
EV Charging Station; 30A 208-240V AC, 7.2 kW output, wall mount; 20 ft. charging cable, plug-in installation	<b>HBLEV30B</b>
EV Charging Station; 30A 208-240V AC, 7.2 kW output, wall mount 20 ft. charging cable, hardwire installation	<b>HBLEV30BHW</b>

- Water-resistant enclosure is rated UL Type 3R/S for indoor and outdoor use
- Time delay feature to delay charge times for more economical charging rates
- "Auto-reset" feature enables charging to restart following a minor fault, thereby reducing the chance of having an undercharged battery
