

Home Solutions

Innovation and Convenience from Hubbell

In a competitive housing market, every option and feature counts. That's why Hubbell Residential offers enhanced electrical solutions that differentiate your homes and give your homebuyers the power options they want, when they need them.

Tri-power countertop receptacles

Convenient power - where they want it, when they need it.

Our 3 in 1 countertop solution provides wireless, inductive cell phone charging, USB A & C ports, plus 120V receptacle. Convenient, safe, and spill proof.

- Provides conveniently located power for kitchen appliances, and can simultaneously charge tablets and phones
- Spill water tested for homeowner safety
- Minimizes space required on counters and inside cabinets
- Device retracts into countertop when not in use, while still providing convenient access to wireless phone charging

Home Solutions

Innovation and Convenience from Hubbell

Convenient power where they want it, when they need it.

Think of all the places your homeowners would like to have convenient access to charge phones, tablets, speakers and other tech gadgets.

Give your new homeowners the convenience they want by adding any of the items below to replace any existing outlet.

Wireless wall-mount charger & USB outlet

No cord? No problem! Flexible holder keeps phone firmly in place and allows homeowners to access alerts without removing the phone. Charges through most phone cases.

Charger & Surge Combo

Protect their valuable computers and equipment by installing surge protection at the device, while also allowing ample charging for all mobile devices.

*Requires two outlet boxes for installation.

USB charger outlets

USB A port for legacy devices, and USB C for newer electronics. Plus, room to access USB ports and receptacles at the same time!

Outdoor weather-resistant USB receptacle

Front porch, back patio or garage: No need to worry or stop entertaining when batteries runs low.
