

Contemporary 12V Path Lights

with drop-in LED Lamps

The Modern Styles Customers Want. Kichler® Dependability You Can Count On.

NEW Kichler® Contemporary 12V Retrofit LED Path Lights

Kichler Lighting is expanding its path light portfolio to give homeowners more contemporary style choices than ever before. Our latest retrofit fixtures feature sleek, linear styles, while offering full compatibility with Kichler® 12V LED drop-in Lamps (sold separately). The designs not only add architectural interest; they also deliver all the performance benefits you've come to expect from Kichler:

- Illuminate sidewalks, stone pathways, lawn walkways and more: the diffused lenses spread smooth, even lighting across the application without hotspots or glare.
- Durable solid cast brass or aluminum construction in multiple finishes provides the look homeowners are after and withstands harsh weather conditions.
- T5 Wedge socket lamp base is optimized for Kichler® LED drop-in lamps, assuring easy installation and light output selections.
- Performance and durability come backed by Kichler's limited warranty. Visit Kichler.com/Warranty for details.

KICHLER®
