

LED A19/A21 LAMP

naturalLED® offers various direct replacement for A- lamps for your decorative lighting, which is free of mercury and lead, JA8 Listed and dimmability functions.

Our A19/A21 comes in the choice of 5 watt, 9 watt, 12 watt and 17 watt to replace your existing incandescent up to 75 watt, saving up to 84% of energy. It is a great value energy efficient lamp, using less energy and lasts up to 25,000 hours average life.

naturalLED® lamps are ideal lighting solution for track lights, display lights, hotel boutiques, residential, retail, museum lighting and any hospitality applications.

Features & Benefits

- ▶ Energy Star Certified
- ▶ UL Damp & Enclosed fixture rated
- ▶ Title20, Title24/JA8-2016
- ▶ Wide selection of color temperature
- ▶ Uniform light distribution and consistent color
- ▶ Up to 84% energy savings
- ▶ Omni-directional
- ▶ Direct Replacement
- ▶ Instant on
- ▶ Contains no mercury or lead
- ▶ 25,000 hrs rated average life

Specifications

- ▶ Input line voltage: 120V
- ▶ CRI: 90
- ▶ Power Factor: >0.9
- ▶ Dimmable
- ▶ Operating temperature: -4°F - 104°F
- ▶ Finish: White Polycarbonate

Applications

- ▶ Residential Lighting
- ▶ Decorative Lighting
- ▶ Recessed Downlight
- ▶ Track Lighting
- ▶ Accent Lighting
- ▶ Retail Lighting
- ▶ Restaurant Lighting
- ▶ Hospitality Lighting

Types of LED Lamps

What is CRI 90

CRI80

CRI90

High CRI with LED

Color Rendering Index (CRI) describes how an object appears to the human eye based on ideal or natural light source. The CRI is an index, a measure, that tells something about how colors are represented by light coming from a certain light bulb, compared to how the colors are rendered with the light coming from a reference illuminant.

The CRI reports a unit less value, that can differ between 0 and 100. The value 100 means that there is no difference in color rendition between the light of the observed light bulb and the light of the reference illuminant. Lighting with a CRI of 85 to 90 is typically "excellent" at rendering colors of objects while CRI90 or greater are "superior".
